PROFILE SUMMARY

Junior .NET Backend Developer specializing in scalable, data-driven web applications using .NET 9, ASP.NET Core, and RESTful APIs. Experienced with Entity Framework Core, SQL Server, Redis caching, and Clean Architecture for maintainable, high-performance backend services. Strong problem-solving background (ICPC, algorithms) with internships and real projects; open to full-time, remote, or hybrid roles.

TECHNICAL SKILLS

Languages: C, C++, C# 13, JavaScript, TypeScript, Python, SQL, HTML, CSS, SCSS
Backend & .NET: .NET 9, ASP.NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework Core, ADO.NET, AutoMapper, RESTful APIs, SignalR, WebSockets, Redis, Clean Architecture, Microservices Architecture, JWT, OAuth2
Databases: SQL Server, MongoDB, Redis
Frontend: Angular 17 (RxJS, NgRx, Interceptors, Lazy Loading, Signals), Bootstrap, Tailwind, Flowbite, Angular Material
Concepts: OOP, Functional Programming, Data Structures, Algorithms, SOLID, Design Patterns, System Design
Tools: Git, GitHub, DevOps, Postman, Agile, SDLC

PROFESSIONAL EXPERIENCE

.NET Backend Developer Intern — Code Way, Cairo, Egypt **Nov 2025 – Present**

- Design and develop backend services using .NET 9, ASP.NET Core, ASP.NET MVC, and Web API following Clean Architecture.
- Build and consume RESTful microservices with JWT/OAuth2 authentication, SignalR, and WebSockets for real-time communication and integration between services.
- Work with SQL Server and MongoDB, using Entity Framework Core, LINQ, and Redis caching to optimize data access, scalability, and performance.

Front-End Developer Intern — Yildiz Advanced Projects & IT Solutions, Cairo, Egypt **Mar 2025 – Apr 2025**

- Developed reusable Angular UI components and enhanced UI/UX using Angular Material and Tailwind CSS.
- Integrated REST APIs to connect frontend with .NET backend services and improved application stability.

Front-End Instructor — Savvy Programming School, Cairo, Egypt **Sep 2025 – Present**

- Teach HTML, CSS, JavaScript, and Angular to students aged 10–18 through interactive lessons and coding labs.

ICPC Competitor — ACM International Collegiate Programming Contest **2024**

- Strengthened competitive programming and algorithm problem-solving skills using data structures and algorithms.

EDUCATION

B.Sc. in Computer Science **2023-Present**
Benha National University (Obour Campus)
- GPA: 3.72/4.00

Full-Stack Web Development Track **2024 – 2025**
Route Academy IT Training Center Tech Stack: Angular, ASP.NET Core

PROJECTS

E-Commerce API (Backend) — ASP.NET Core, C#, EF Core, Redis, JWT, Clean Architecture

- Designed RESTful APIs with Clean Architecture (Domain, Application, Infrastructure, API layers) and microservices-oriented design.
- Implemented JWT and Google OAuth2 authentication with role-based authorization and modules for Products, Categories, Cart, Orders, Payments, Delivery, Reviews, and Admin.
- Optimized SQL Server database with EF Core, LINQ, migrations, and Redis caching; added pagination, filtering, sorting, search, validation, global exception handling, and structured logging.

Repo: github.com/sefffo/ECommerce-Web-API — **API Docs:** Dev — Prod

E-Commerce Web App (Frontend) — Angular, TypeScript, RxJS, Tailwind CSS
Comprehensive online shopping platform with responsive UI, product catalog, cart, and order management using Clean Architecture.
Repo: github.com/sefffo/E-commApp

Languages: Arabic (Native) — English (C1 – Professional Working Proficiency)
